

PRODUCT SUMMARY OF 12V/24 V, 20 A /40A AMP PWM SOLAR MANAGEMENT UNIT WITH LCD DISPLAY
PRODUCT CODE – ESCO1224-40

EVERON 12/24 Volt 20A / 40Ampere, Solar Charge Controller is manufactured by Everon Energy Systems Pvt Ltd. Delhi under the brand name "EVERON". It is a PWM based High Quality Solar CCU with Built-in power Management & LCD Display. It helps user to keep track of Solar Panel and Battery performance, by accurate display of Battery Voltage and Charging current. " Everon 12/24 Volt 40Amp SMU" comes with a standard warrantee of one year. Everon is a 25 year old company having reputation for quality and reliability as affordable prices.

- Convert your ordinary home Inverter / UPS to Solar Inverter.
- Micro Controller Based PWM Charge controller
- Auto connection and disconnection of mains power supply.
- Maximize solar utility and reduce electricity bills.
- Auto selection between 12 V and 24 V Battery.
- 2 Line LCD Display
- Accurate Display of Battery Voltage and Solar & Battery Charging Current, Load in KW
- Wall Mounting structure
- In house Designed Product with High Quality components
- High Efficiency 99%
- 1yr Warranty
- Package Contents: 12V/24 V, 20 A / 40 Amp CCU, Warranty Card and Accessories
- Manufactured and Sold by Everon Energy Systems Pvt. Ltd. (EVERON)

Dimensions: 405 X 125 X 60 MM (HXWXD)

Weight: 1000 Gms. (Net Weight) 1.2 Kg. (Gross Weight)
